

Project Proposal & Requirements

SAN JOSÉ STATE UNIVERSITY

powering SILICON VALLEY

- Upload an electronic copy in pdf format to Canvas **by class time, Tuesday 9/15, 2026. (One copy of report from each team only)**
- Each team must submit 8-10 pages long narrative, **detailing** the preliminary analysis for the application, including its basic requirements.
- The narrative should focus on application functionalities, rather than implementation details.
- Every functional requirement must be explained and be ready for further design. (Refer to the example document posted on Canvas)

- Cover Page: Project Title/Topic, Team Information (Team #, name and sjsu email of each team member)
- Project Description
 - Provide an overview of the project (Goal, motivation, innovative idea, stack holders, application domain, benefits to users...)
- System Environment
 - Structure of the system (graph based on client-server/3-tiered architecture)
 - HW/SW used (OS, Redhat, ...)
 - RDBMS Used (MySQL version)
 - Application languages...(Java, XML, SQL, GUI Builder, Designer, GTK+...etc)
- A list of Functional Requirements (based on database manipulating activities)
 - A list of detailed descriptions of users and how users interact with your application
 - Describe each individual function/feature, functional process and I/O.
- Non-functional Issues
 - Detailed descriptions of Graphical User Interface...
 - Detailed descriptions of Security...
 - Detailed descriptions of Access Control...
 -

- **Page limit:** 8-10 pages (single column)
- **How to submit:** Upload a pdf file to Canvas by **class time, Tuesday 9/15/2026**. (Only one copy from each team)
- **Grading scheme:** 10/100 = 10/100 (base grade) + 5/100 (extra credit for novelty)
- **The submitted proposal must be approved by the instructor.**
